SET REOPENING OF WASHINGTON HIGH AUGUST 14

* * *

August 14 was set as the date for the opening of the fall term of Washington High school at the annual meeting of the high school board, held in Centerville last Saturday afternoon, at the high school.

F. T. Hawes and A. T. Biddle were elected president and secretary of the board respectively. The following staff of teachers were selected: G. W. Wright, principal; R. O. Moyer, vice-pricipal; R. F. Havens, Chas. A. Colemore, W. T. White, Miss E. Marie Sandholt, Miss E M. Wills and Miss Doris Spencer.

There were two vacancies to be filled this year. E. V. Weller, who taught commercial work, printing and German last year resigned to take charge of the department of journalism at the Berkeley High school. Miss Dahlia Spencer resigned to become Mrs. Jameson. In addition to filling the two vacancies thus caused it was decided to secure a third new teacher in order to be able to give second year work in the agricultural and industrial courses. The three new teachers selected are Chas. A. Colemore to teach Physics, Chemistry, and German; Walter T. White, Commercial Subjects and Miss Doris Spencer, French, Free Hand and Mechanical Drawing and Mathamatics School will open Monday, August 14th, 1916.

COLLISION IN LOCAL YARDS

* * *

While the switch engine on the local Dumbarton line was backing out of the switch leading to the gravel plants last Tuesday morning it collided with a loaded gravel car which had been forced out of position by another freight crew. The crash demolished the cab of the switch engine, caused the steam to escape and set the oil burning in the cab. Fireman Harry Simon saw the danger just in time to jump from the engine and avoid what would certainly have been death to him. At the same time he shouted to Engineer J. Finn to jump who also had a close call. It seems that while the Dumbarton crew were at the gravel pit plants getting a number of cars another train had moved some loaded cars to a point in the yards where the switching crew unaware of the change and backing out of the switch suddenly encountered them The contact practically wrecked th cab of the engine.

MASONS OBSERVE THE FOURTH OF JULY

* * *

A most zealous patriotic spirit prevailed at the Decoto Masonic Home, on our national holiday, Superintendent Hartman arranged and directed the day's proceedings, and gave one and all a card of greetings as well as bon bons. In the morning an excellent program consisting of literary, vocal, and instrumental numbers was rendered, in the afternoon a moving picture program was given, and in the evening a beautiful display of fire works was enjoyed.

NILES CHAMBER OF COMMERCE BAND

* * *

The Niles Chamber of Commerce Band boys are surely surprising the people of our town by playing so well in such a short time, a period of four months. Mr. Craft who is very much interested in the band is doing all he can towards helping the band. A stand is to be built by the business men of Niles and band concert will be held twice a week. Mr. Benard gives the boys the show house once a month to help them get their uniforms. Mr. King from theU. P. E. C. band of Oakland is the band master and is trying his very best to have a first-class band in Niles and sure enough he is making a success. M. J. Silva of Niles, the drill teacher and also the manager of the band, is very much interested in helping the boys. Joe Jacam and Tony Silva, the assistant leaders, have improved the boys a great deal, which is a great help to the teacher. The band is composed of twenty-six members, all Niles boys.

Township Notes

* * *

The wedding bells rang in San Jose Wednesday for two local young people, when Miss Ethel Van Olinder became Mrs. Orville Abel. The couple were united at St. Joseph's rectory by Father Culligan, and will make their home in Irvington.

* * *

Mr. and Mrs. R. F. Driscoll and sons Richard and Ed, Mr. and Mrs. Reiter of Salinas and the Misses Josephine and Lela Noll, have returned from their trip to the Yosemite Valley. They went by motor, via Nevada and the Mariposa Big Trees.

* * *

A dance is to be given in Catholic Hall this Saturday evening for the benefit of Antone Perreira of Newark, a former member of the Sodality baseball team, whose leg was broken during one of the games early this season.

* * *

Miss Helen Blacow of Centerville was recently married to Mr. de Ralp Frizell. Particulars of the marriage are not at hand other than that the home of the young people will be in Martinez.

* * *

Among the local people who have recently enjoyed an auto trip to Yosemite Valley are Mr. and Mrs. Chester Hatch of Niles and E. H. Stevenson and two sons of Centerville.

Sport Gossip

* * *

The Centerville Sodality team went down to defeat again last Sunday at the hands of the Pacific Pipe Co. of Oakland by a score of 10 to 8. Dias who was given a try-out with the locals made a good showing as a prospective hurler but was not in form, having been out of the game for two years. He was succeeded by Brother Wales who pitched his usual steady game.

* * *

Word comes from Reno of the good work of Valencia, former first baseman of the Sodality team. Sunday he pitched a three-hit game which was won by his teammates by a 6 score. He held the visitors to a shut out with but one hit until the last inning when Hawley, also a local boy who was working on the receiving end, called for two straight balls each of which was batted over the fence for a home run. We believe that this record of Valencia's is unique — thre hits, two of them circuit swats.

* * *

The Sodality boys will attempt to shake their jinx of the past three weeks this Sunday, when they will entertain the team of St. Joseph's Institute on the high school grounds. The boys have trying to strengthen their weak spots and ought to put up a better article of baseball this Sunday.

CALIFORNIA BRICK COMPANY HAS BUSY SEASON

* * *

The California Brick Co. at Decoto is at present enjoying a very brisk business. At present there are eighty-five men employed and this force will be increased as soon as the company increases its kiln capacity which it intends to do at once. The proposed improvements will afford about a quarter more kiln capacity. The company has just finished a large clay shed two hundred feet square and forty feet deep in which to store clay for use during the rainy season. This shed has double the capacity of the one in use during the past year.

An idea of the extent to which the Decoto product is now being used can be gained when it is known that the paving brick is being used on about twenty different streets in San Francisco. The company is at present getting out a half million bric for the Alum Rock road in Santa Clara County. J. Galen Howard the famous architect for the University of California is using the brick extensively and is well satisfied with the product turned out by the company. In places the brick are being used in the university grounds to supplan concrete owing to the more attractive appearance it makes and its great permanence.

Under the management of T. J. Meyers the plant during the past year has overcome some of its most serious obstacles [illegible] it is a source of congratulation to this entire section to learn of the present successful operation of this big plant.

GET ON THE REGISTER

If you have not registered do so before July 29 so that you can vote at the August primary. Every Republican should be sure to register as that is the party in this county where all the fighting will be.

LOTS OF SPEEDERS

Judge J. G. Mattos Jr. harvested his usual crop of speeders this week, something like $250 being gained in one day's sitting. As the judge is inclined to temper justice with mercy this sum represents quite a number of speeders.

DEATH OF PIONEER LADY

The death of Mrs. Wilhelmina Silva, aged 86 years, a native of the Azores, occurred at her home at Centerville, Wednesday. Mrs. Silva has been a resident of the township for over fifty years. Her husband's death occurred nearly thirty years ago. She is survived by one son Mr. Charles Silva and Mrs. Antone Raposa of Centerville and Mrs. George Randall of Oregon.

AUTOIST HITS RIG IN NILES

* * *

A reckless autoist, going through the town of Niles at the rate of forty-five miles an hour and with only one light burning crashed into a horse and buggy driven by Ferdinand Mosegaard last Wednesday night. Mosegaard had a light on his rig at the time. Mosegarrd's horse was considerably shaken up by the shock but the automobile suffered even more. After the collision the auto driver beat it for Oakland. Ed Rose was notified and overtook and arrested him and he was haled before Justice Mattos. He gave the name of Abe Sylvesta. He was fined and also settled with Mosegaard to the extent of $15.

ABOUT REGISTRATION

Quite a number of voters seem to be in the dark about registration. There are just a few things to remember.

1. In order to vote you must be registered since Jan. 1, 1916.
2. In order to vote at the primary election next month you must be registered by July 29.
3. If you wish to vote for any particular party candidate at the primary you must be registered as affiliating with that party. If you have registered since Jan 1, 1916, but declined to state your party then you must register before July 29 stating your party.
4. In signing petitions for candidates sign only for candidates who seek the nomination in your party.
5. A voter of any party may sign a petition for a non-partisan office.
6. Don't sign any petitions until you have registered. It is pure a waste of time as your signature will be thrown out.

FALLS IN WELL

While climbing a ladder in a well at the works of the Niles Canyon Stone Products Co. last Saturday afternoon August Andrade fell a distance of six feet and sustained injuries which will lay him up for several days.

Animal Meets Peculiar Injury

* * *

A horse belonging to Frank Hurd tied at the Southern Pacific station Saturday night was bitten by another horse tied near him and in resenting the other horse's action reared and in coming down fell afoul of one of the iron hitching posts. The post penetrated the horse's abdomen and caused such serious injury that it had to be shot immediately.

Young Boy is Thrown from Car

* * *

John Reys, a Southern Pacific section hand, was hurled backward from a rapidly moving track motor last Tuesday morning and sprained and probably broke his right ankle besides sustaining internal injuries. After receiving first aid by Dr. Taylor he was taken to the main Southern Pacific hospital in San Francisco for treatment.

AUTHOR'S SON OWNS SHOOTING OF HIS FOREMAN

* * *

Compton Vaughn, who says he is a son of the late Kate Compton Vaughn, a noted writer of New Orleans, and Franklin Vaughn, criminal attorney of Munroe, Louisiana; also a brother-in-law of Clarence Bennett, who is managing Barney Oldfield, is said to have confessed in the county jail last last night to the willing of George Barnett, foreman for the Spring Valley Water Company at Sunol last week.

Barnet was shot in a quarrel over a game of cards early Thursday morning and died about 1 o'clock after having identified Vaughan as his assailant.

When first brought in Vaughan was intoxicated and not able to talk coherently, but when he recovered is said to have made the following statement:

"My name is Compton Vaughan. I am the son of Mrs. Kate Compton Vaughn, the writer, and Franklin Vaughan, the Louisiana lawyer. After graduating from the University of Louis[illegible] kansas, whe[illegible] failed two years [illegible] to Panama to reco[illegible] While I was away my [illegible] vorce.

"I came from Panama last Dece[illegible] ber as purser on the steamship Melville Dollar and worked for a while in San Francisco, San Jose, and Newark at odd jobs. Two days ago I and a man named John Shoenhite got work as laborers at the Spring Valley dam. Barnet was my boss.

"We worked all day on the Fourth, but in the evening started a poker game. Some of the fellows went to San Jose and returned with some whiskey. We all got drunk, and Barnet accused me of owing him $1.50 on the game. I refused to pay it and he called me names and started to attack me with a chair. I ran to Schoenhite's bunk and got his pistol. Then I came back and shot Barnet twice and threw the gun out into the canyon.

"The fellows told me to make my getaway ,but I refused, and waited till the officers came to arrest me."

THE BIG FIGHT IS ON

With the close of the time for filing nominations the political situation in the State and county has assumed definite form. The state fight will be a contest between the progressive republicans and the reactionary republicans. Encouraged by the apparent reverses to the progressive state administration ,the reactionaries have become encouraged and hope to begin in this campaign the reestablishment of the old reactionary conditions that prevailed before the Johnson administration kicked the corporations and their political lackies out of control of the government of the State of California. They are going to try again in this campaign "to get" Governor Johnson and begin the work of undoing the progressive legislation of the past six years. Governor Johnson has accepted the challenge and will once more make the fight for popular government. In this fight he will not be hampered and handicapped by the candidacy of Theodore Roosevelt. Fortunately for California and for Governor Johnson, Roosevelt has eliminated himself. Now the fight will be a straight line up between the Governor and his enemies. As a candidate for the United States senatorship, the Governor will go before the people on his own record and not as supporter of Theodore Roosevelt's personal ambition. No governor in any state since the organization of this republic has accomplished so much real constructive legislation in the interest of the people. It is a proud record of achievement and because of it California stands to-day, the leader in real democracy and genuine republicanism in all this great federation of states. With Johnson in the United State senate the influence of the good work done in California will be extended to the entire nation. Entering the national legislature in the prime of life, equipped with the experience that has been gained in the California battles for social justice, favorably known throughout the nation for his sincerity and ability, he will at once become one of the leaders in the national fight for [illegible] will be proud [illegible] the whole nation [illegible] by his valuable service.

And right here we want to say that the action of Francis J. Heney in refusing to be a candidate against Governor Johnson is one of the most splendid acts of his great career.

It matters not in such a fight as now lies ahead of us who the opponent or opponents of Governor Johnson may be or which part of the State they hail from. In the great fight for the rights of the men and women and children of this state as against the forces of reaction and industrial slavery that are lined up against him all geographical considerations will be swept aside. Governor Johnson will be the next United States senator from California because he has earned the confidence and the esteem of the people of California.

It is a fortunate thing for California that the Governor has entered the fight for the lines will now be clearly drawn right down the list to the lowest legislative office. The pussy-footers, the shilly-shalliers, and the hot air merchants will have to face the issue and come out in the open. There will be no temporizing in this campaign in California. It will be a life and death fight politically and those who do not take their stand openly for the cause whch Governor Johnson typifies will be classed against it. There will be no quarter asked on the part of those who stand for the progressive achievements of the past six years in California and when the fight is over the Republican party of California will either be definitely committed to the rights of the common people or it will once more become the party of special privilege. There is no middle ground. The die is cast and as this paper entered the fight at its inception in 1908, so to-day we enter the fight of 1916 willing to rise or fall in the struggle which is to determine whether California shall remain a free and independent state or whether it shall go back to the old days of political and industrial slavery.

ELSTON FOR CONGRESS

J. A. Elston, present congressman from this district, is a candidate fo rthe Republican nomination. Elected as a Progressive two years ago he has made a consistent record as a congressman. He has dodged no issue and has voted independently and at all itmes in the interest of the people. There is every reason why he should be reelected and none why he should be replaced by another. He has kept faith with the people whom he represents. If returned he will be in a position to render better service than a new man. Elston is square, conscientious, a hard worker and able and best of all is a real friend of the common people.

He is opposed in this campaign by West of Alameda. Dr. Derrick of Oakland and our own reactionary Crosby of Hayward whose efforts in behalf of the Peoples W[illegible] Co. scheme three years ago has especially endeared him to the corporate interests of Alameda county.

Navy League Unmasked

Extracts from Speech by Congressman Clyde H. Tavener

(Continued from last week.)

Are there any reasons, other than purely patriotic ones, why officers and directors of the Nickel Trust might be urging, through the Navy League, a $500,000,000 bond issue for battleships, and so forth? Light might be had on this subject by referring to a table to be found on page 5259 of the Congressional Record, last session. The table in question is headed" Metal per ton of armor," and is a part of the report of Senator Tillman, Representative Padgett, and Admiral Strauss, of the Navy Department, as to the cost of manufacturing armor plate.

This table states that of every $5,724 worth of metal used in the manufacture of armor plate $2,953 represents the value of the nickel scrap and $1,466 represents the value of the metallic nickel used in the manufacture of armor.

Nor is the use of nickel confined to armor plate. It goes into ammunition hoists, communication tubes and turrets, deck, hull, and ship plates, guns and gun shields, rifles and small arms, torpedo air reservoirs, marine straight-line shafting, crank shafts, piston rods, and other marine-engine forgings. As to whether the International Nickel Co. is a war trafficker, the Wall Street Jounrnal, March 23, 1915, has the following to say:

As aresult of the demand for cartridges and shells, the International Nickel Co. is receiving unusually large orders for nickel. The metal is necessary in the manufacture of the various kinds of ammunition, and the various manufacturers of munitions, such as Bethlehem Steel Corporation. Remington Arms, and Union Metallic Cartridge Co., have found it necessary to increase their supply of nickel.

The Wall Street Journal of May 22 reported that the business of the Nickel Trust was soaring higher and higherfi and that the "increase in business was mainly due to the war."

International Nickel advanced nine points in one day.

Nickel is used in the manufacture of submarines to a considerable extent. It is made use of, according to the Wall Street Journal, in the new electric batteries for submarines, invented by Thomas A. Edison, which will prevent the generation of chlorine gas. In this instance the nickel supplants lead. An other source of increased revenue is the high price of copper. The company's ore recovery is estimated to be about 70 per cent nickel and 30 per cent copper. The known existing nickel ore deposits. Its patented nickel lands in Ontario, Canada, cover 100,000 acres, and in addition to this the company owns the town of Copper Cliff. It also owns the shares of the Societe Miniere Calednienne of New Caledonia, which company owns extensive nickel lands. These lands, it is estimated, will furnish the company with at least 60 years' ore supply. Earnings during the months of June, July, and August, according to well-informed interests, were at the rate of between 25 per cent and 30 per cent a year on the common stock.

Thus it will be seen that the head of the Navy League has the nickel, plenty of it, enough to last for 60 years. All that remains to be done is to get Uncle Samuel to buy it. If Col. Thompson can manage to put through the Navy League's proposed $500,000,000 bond issue for battleships and so forth, perhaps the Nickel Trust wil lbe able to pay even 50 per cent or 60 per cent on its common stock. If there is any more profiftable way for the head of the Nickel Trust to spend his time than in Washington pointing out to the Senators and Congressmen the frightful insecurity of the nation, it would be interesting to know how he could do it.. It need not be said that he is a great patriot, and it can not be said that he is not a great business man. It is not every man who can make patriotism a business and make it pay 20 per cent or 30 per cent!

(To be continued next week.)

FRESNO EDUCATOR IS MARRIED

Nuptials of H. H. Richard Hunt and Miss Emma Barris Dopkins were solemized in pretty style on July 5 at 8:30 o'clock at the home of Mr. and Mrs. George Dopkins, when their daughter Emma B., became the bride of Prof. H. H. Hunt, a member of the Fresno high school faculty and secretary of the University Club of that city. The Dopkins home was beautifully decorated with flowers and greenry, and the lawn where the wedding took place under a canopy of flowers, was lighted with rows of Japanese lanterns. The ceremony was performed by Rev. Steutzel, pastor of the Presbyterian church. The attendants were Miss Maye Dopkins, sister of the bride, Miss Inez Dodd of San Jose, and Miss Hunt, sister of the groom; Joseph Dopkins, brother of the bride, Jesse Newman, and Mr. Clement Renouf. Only immediate relatives and friends of the two families were present. Following the ceremony, elaborate refreshments were served. The bride and groom left for Lake Tahoe, where they will pass their honeymoon.
